**How far do you have to go to get healthy food?
How many people in Bexar County have to travel
1 mile or more to get to their groceries?**

(answer on back)

CITY OF SAN ANTONIO
METROPOLITAN HEALTH DISTRICT

FIND YOUR HEALTHY CORNER STORE.

**Hungry
for more?**
[sanantonio.gov/
healthycornerstores](http://sanantonio.gov/healthycornerstores)

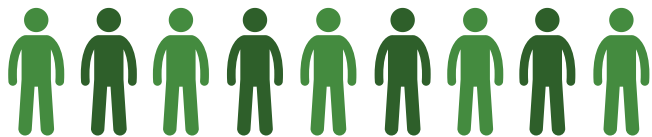

Here's some
food for thought:
over 50 types of fruit
& vegetables have been
sold in Healthy Corner
Stores. How many
types of produce can
you name?

Nearly 581,000 people in
Bexar County live 1 mile or
more from a grocery store.

(That means 34% of our community
has low access to fresh produce.)

Or if they stood side by side, they
could form a line from San Antonio
to Houston (and then some)!

If they were in a bus, it would take
8,670 VIA buses to fit them all. Bumper
to bumper, the buses would stretch
from San Antonio to Fredericksburg.

The Healthy Corner Store program increases access to healthy food by partnering with local stores to offer convenient and affordable fruit and vegetables throughout San Antonio.
